COMPANY PORTFOLIO

about sneak peek designs

Sneak Peek Designs was formed in March 2004 as an integrated advertising house covering your marketing, design, branding and advertising needs. We offer cost effective and practical advertising solutions for your corporate marketing needs. With almost two decades of experiences, we understand your needs as well as your clientele and how you can benefit from your marketing efforts.

We foster a unique working environment, with our designers based around South East Asia, each with their own specialties. This enables us to better target your needs at very competitive prices.

Our expertise with our collective experiences has allowed us to venture into several countries, with clients namely in Malaysia, Maldives, Singapore and Indonesia.

We are eager to try new things and to repeat well-proven successes. We enjoy what we do and love sharing our knowledge with like-minded thinkers, doers and innovators. Our mission is to commit unsurpassed quality service and at the same time, provide you with the peace of mind on your advertising needs.

The sky's the limit when it comes to creativity, both yours and ours...

what we do

- E-mail Marketing
- Electronic Brochures
- Powerpoint and Keynote Presentations

Other Services

- Corporate Branding & Identity
- Copywriting
- Photography
- Videography

how we work

In most cases, our client will only be required to meet our Creative Director or designer once, during the preliminary stage of the project. After that, all correspondences will be done via email, so all communication between the client and our company are logged for easy future references. Of course additional meetings can be arranged by either parties, as and when necessary.

preparation guidelines

Putting an advertising project plan together can sometimes be tricky and requires more preparation than you think. Here are some basic guidelines to help you prepare for your upcoming project:

- Fully understand your product market and what you hope to achieve with your choice of advertising method.
- Think about the project and put together your personal ideas of what your advertisement to look like so this can be discussed with us to give us a better understanding of what you have in mind.
- Prepare your materials, ie. text and images for the project. Most people do not realise that this is the most time consuming segment of an advertising project. Having this prepared in advance will help us complete your project within the quickest time possible.
- Set your deadline. This will enable us to plan our work schedule within your needs.
